

SAY GOODBYE TO SLEEVES

INTRODUCING ICEROSS® SEAL-IN™ LINER THE FIRST SUCTION LINER THAT REQUIRES NO RESTRICTIVE SLEEVE

OSSUR is the undisputed leader in the development of liners. And the new **Iceross Seal-In liner** is another major breakthrough in liner technology.

Iceross Seal-In liner is an innovative suction system incorporating a **Hypobaric Sealing Membrane (HSM™)** that provides a secure, comfortable suspension without an external sleeve.

For amputees wanting liberation from the restrictions of a sleeve... it's time to say hello to the new **Iceross Seal-In liner**.
