

# GWEN KNOWS QUALITY

Gwen Smith has high standards of quality. She demands it from herself. And she expects it from her prosthesis.

*"For me, quality equals confidence. I know I can rely on **Elation** to give me the support I need to perform well at work and the flexibility to dress up. The foot itself looks great—and it helps me look good. It gives me the confidence that comes from feeling feminine again."*

Ron Merritt, CPO, Gwen's prosthetist, agrees. "The cosmetic cover on the **Elation** is second to none. And nothing else is in the same league with the workmanship of Ossur products. No matter how you adjust this foot, it doesn't change the build height or the alignment. No other heel height adjustable foot on the market approaches the biomechanical design of **Elation**."

Find out what Gwen and her prosthetist already know. There really is no substitute for quality. Call 800 233 6263 or visit us at [www.ossur.com](http://www.ossur.com) for more information.

**INTRODUCING  
ELATION FLEXSKIN™**

The **Elation** FlexSkin silicone cosmetic cover has a lifelike look featuring detailed skin texture and nails.
