

Flex-Foot® Axia™

WITH GUIDED ROLL-OVER™

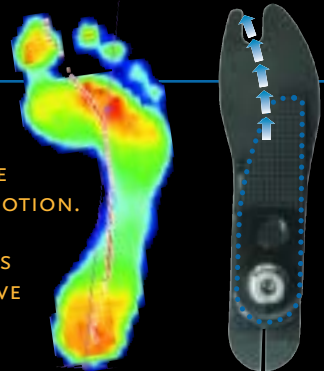

PROPRIETARY GUIDED ROLL-OVER™ TECHNOLOGY ENHANCES STABILITY

Axia's unique design and guided roll-over provide a truly natural and effortless gait, with exceptional stability. Its low build height, durable design, and simplified selection process make Axia your new best choice for amputees with low to moderate impact levels.

For more information call **800 233 6263** or visit **www.ossur.com**.

- THE ASYMMETRICAL UPPER PLATE GUIDES THE CENTER OF PRESSURE MEDIALLY, PRODUCING MORE COMFORTABLE AND BIOMECHANICALLY CORRECT MOTION.
- A GEOMETRICALLY DESIGNED TARSAL CORE OFFERS MULTIAXIAL FUNCTION COUPLED WITH PROGRESSIVE STIFFENING AND ADJUSTABLE HEEL STIFFNESS.
- FLEX-FOOT TAPERED CARBON PLATES ALLOW FOR PROPORTIONAL ENERGY RESPONSE TO THE LOAD APPLIED.

Life Without Limitations
