Michelangelo

bebionic

Dynamic Arm

Don't have a lot of experience with upper limb solutions but don't want to turn business away? Let us lend a hand. Ottobock central fabrication technicians have decades of experience with difficult or unusual fittings. We also pride ourselves on using some of the best materials and components in the industry, like bebionic, Dynamic Arm, and Michelangelo.

With our fabrication team, you can expect experienced and dedicated technicians to support your needs and value your time.
