Ottobock bebionic® Hand

Intelligent. Precise. Reliable.

With fourteen selectable grip patterns and hand positions, the bebionic hand by Ottobock helps your patients embrace the everyday with speed, reliability, and precision. When you recommend bebionic, you can rest assured you are providing your patients best-in-class service and clinical support. Invite your patients to experience intelligent design and schedule a trial today.

Precise: Padded fingertips and individual motors allow for proportional speed control to gently grasp an egg or tightly hold a coin

Reliable: The enhanced bebionic by Ottobock is now fully manufactured by Ottobock and backed by unmatched service, support, and quality you can depend on

Intelligent: Map a patient's unique muscle patterns and translate them directly into various hand movements for individualized control with Myo Plus pattern recognition
