

# Insist on Otto Bock

## Our carbon fiber feet have you covered

Whatever your patients need, Otto Bock's carbon fiber feet have you covered on every level.

Maybe it's a sturdy foot with the super low clearance of our Lo Rider, or a high performing gem like the Axtion®. We also give you options for terrain conformance with our Journey, or silky smooth walking function in our Trias.† And now, our newest member of the family – the Axtion® DP – for high impact activities and torsional movement.

Get your patients onto an Otto Bock foot by calling 800.328.4058 (U.S.) or find us online at [www.ottobockus.com](http://www.ottobockus.com).
