

Otto Bock has you covered

Updated Styling, Superior Fit

Otto Bock's full line of high-performance carbon feet – including the Axtion®, Journey™, Advantage™ DP2 and LuXon® Max DP – are stepping into higher quality with the redesigned 2C5 footshell.

The new footshell's superiority is more than skin deep with a narrower toe box to easily slide into standard shoes. You'll also find a streamlined, removable ankle cap for easy access to the foot, a larger cap surface that makes adhering the cosmetic finish easy, and the new design helps maintain a natural ankle shape.

To keep your patients in step with any of Otto Bock's feet, simply call Otto Bock Customer Service at 800.328.4058 (U.S.) or 800.665.3327 (Canada) and indicate the side, size and color of your choice.
