Quality for life

# Great Partnerships. Great Stories.

## C-Leg®. The best care for my patients.

As a young dancer, and now as an artist and computer animation student, Kent has always had a unique view on the art of movement.

Maybe that's why he partnered so well with Cody. She cares about the art—and science—of movement, too, and focused all her skills on getting Kent the best fit and function possible. Working together, they were able to picture Kent's life in a whole new way.

Find out more about Kent and Cody's story at [www.clegstories.com](http://www.clegstories.com). Clinical assessment tools and a free, no obligation test drive make it easy to picture your patient in a C-Leg.
