Have a cannoli! That's what you'll hear first when you visit Ed. It's the result of four generations spent cooking up something perfect. It's also a tradition for Ed when he visits his prosthetist — always bringing a box of Italian treats to help sweeten the deal.

There's no need to bribe John, though. As a long-time prosthetist with a tradition of great C-Leg® fittings, there's nothing he appreciates more than an outcome crafted with care.

Find out more about Ed and John's story at [www.clegstories.com](http://www.clegstories.com). You'll find the ingredients for your own success, including clinical assessment tools and a free, no obligation test drive.
