Quality for life

## Back on his feet.

**And moving at the speed of life. With the C-Brace.**

Until now, people with paresis of the quadriceps, post-polio syndrome, and some types of incomplete spinal cord injury had limited choices. Now Ottobock opens a whole new world of mobility with the remarkable Orthotronic Mobility System: C-Brace®.

Imagine fluid, natural, efficient movement with support on uneven terrain, on inclines, and going down stairs. In daily life, it means a walk in the park can be just that.

Call your Sales Rep at 800 328 4058 to see C-Brace in person.
