Introducing Triton® smart ankle

The numbers don't lie. Triton smart ankle is unmatched with 34° range of motion, 2 inches heel height adjustment, up to 72 hours of battery life, and packed with more features and function. Setting up and programming Triton smart ankle are completely wireless due to the integrated Bluetooth, and your patients will love the app that puts simple daily adjustments in the palm of their hand. Talk with your Sales Rep to see what makes Triton smart ankle so different from the rest.
