

Orthotic ingenuity in motion.

Taking Fabrication One Step Further

Casting a new model for excellence, Otto Bock Health Care offers a full range of orthotic fabrication options — including combinations of metal, leather, thermoplastic, and laminate applications.

Offering specialty services in both upper and lower extremity orthotics, such as molded leather gauntlets and TLSOs by measurement, we fabricate to your specifications. Your clinical expertise combined with our technical experience will create successful solutions for your patients.

Call **800.354.5418** for quality fabrication with a quick turnaround. Just tell us what you need — we can fabricate it.
