Mr. Control takes lawn care very seriously.

Every detail matters to him. Just like the details of his fabrication jobs.

Which is why he likes Otto Bock Fabrication Services. Our processes are designed to make sure you get exactly what you are looking for. We listen carefully, document your preferences, confirm your order, and apply decades of expertise to deliver just what you want.

We know you'll really love our website, too. A secure password lets you log in and track the status of your jobs, anytime, day or night.

Although we don't deliver the perfect lawn, we do offer you the best in prosthetic, orthotic and custom seating fabrication. Just call 800.328.4058 in the United States or 800.665.3327 in Canada to find out more and place your order.
