

Comfortable. Durable.

Walking freely. Bending at will. Living an active life. What are the things you'd like to be able to do? With the Walk On™ AFO, you have the ability. The Walk On is an off-the-shelf prepreg made of advanced composite. Its lightweight, features a low profile, and it's extremely durable. Plus, the unique posterior design allows for significant plantar and dorsiflexion, making it easier and more comfortable for patients to go up and down stairs or inclines. So if you're willing, it's able. Call 1-800-328-4058 to meet with your Sales Representative and see the Walk On in action.

And a lot of other great benefits ending in "able."
