

Engineered to be Smarter

The Innovative Axtion

The Axtion foot from Otto Bock delivers more than good looks. It's smart, too. The sleek design incorporates a dynamic heel and integrated pyramid for exceptionally smooth rollover.

At a lightweight 13.6 ounces, you get a durable, high-quality product that stands up to your patient's challenging activities, as well as offering a smart choice for daily routines. And, you get it all with a low 2 1/8 inch profile — enough room to fit the majority of your patients.

If you're still not convinced, consider that Otto Bock offers you the largest and most experienced Professional Services group for clinical support. With more than 100 combined years of experience as hands-on practitioners, they've been in your shoes.

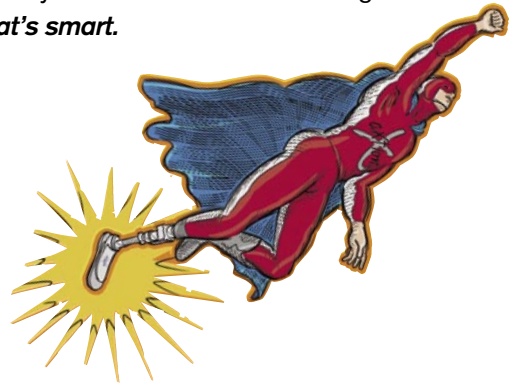

* Offer Valid for U.S. customers only.

So select the smart option. Get into Axtion.

Call 800.328.4058 to place your order.

And if you order 5 Axtion feet before May 30, you will receive your sixth foot — free of charge!*

Now that's smart.
