

Smaller.  
Slimmer.  
Lighter.

# RUSH<sup>®</sup>

## ROGUE<sup>2</sup>

**Redesigned Vertical Shock Rotator** is 32% smaller in volume resulting in a 10.5% reduction in overall product weight & a slimmer profile reducing fatigue during activities.

**Solid Keel** allows  $\pm 10^\circ$  inversion / eversion

**Long Toe Lever** gives better toe response, proprioception, & energy return.

**Mid-stance Support** provides greater stability & a more natural feeling.

**Added Axial Rotation** reduces socket pressure while improving comfort.

**Increased Vertical Shock Absorption** reduces impact forces on the residual limb.

**Heel Shock Bumper** provides >90% energy return.

**Half Rocker Sole Plate** has continuous contact with ground for smooth rollover, eliminating dead spots.

Also available in PDAC Verified H2O and EVAQ8 models.

THE ONLY PDAC VERIFIED FIBERGLASS FOOT L5987 + L5984 + L5781 (RUSH ROGUE<sup>®</sup> EVAQ8)
