

“bebionic small allows me to do what I want, when I want. It makes me faster and more efficient!”

Angel Giuffria, bebionic small user

bebionic small, the world's most lifelike bionic hand; inspired and built from the actual skeletal structure of the human hand.

- 30% smaller than bebionic medium
 - Superior precision
- F1 technology and Swiss watchmaking
 - Two color options
 - Natural and comfortable
 - Intelligent finger sensing
- Rare magnets improve power
