

what does

ADVANCED  
TECHNOLOGY

look like?

ADVANCED TECHNOLOGY at SPS takes on a very personal appearance. We can explain the features of the newest microprocessor prosthetics such as the Proprio Foot™ or Agility™ MPC Knee. SPS provides certification on new devices that stretch the bounds of our field, such as the WalkAide®. Whatever your need, focus or challenge, SPS' staff provides individualized attention and assistance. If you prefer the speed & independence of the internet, SPS' new online ordering system, **eStore**, provides a Personalized Shopping List as the perfect starting point for placing your orders 24/7.

Today, more than ever, SPS is at your service.

SPS Makes it Easy to get on board with all the newest product advancements. We provide in-house demonstrations, courses and certifications as you desire. SPS let's you choose the path and products that work best for you and your staff without any high pressure sales pitches. The pace of adaptation is your own. And if your curiosity is piqued, we'll help you dive into all the product details.

Experience our Commitment. Call 800.767.7776 x 3.

  
Experience Our Commitment

Please visit us in San Francisco at the AAOP Meeting -  
Tables T107-T111 and T064 -T068.
