ONCE UPON A TIME there was a place where customer service reps knew their customers by name; where customers were treated with a high level of respect, service and quality in every transaction....

AND TO THIS VERY DAY, it's still called SPS.

Service Excellence at SPS is not a myth, a fable or a catchphrase. It beats at the heart of each customer communication. It is the centerpiece of an old-fashioned, consumer-based philosophy which has placed SPS first among suppliers in O&P.
