

NEW i-LIMB™ PULSE

The latest addition to the i-LIMB family is the PULSE hand, named for its pulsing grip which provides increased grip strength.

The i-LIMB Pulse features:

- New aluminum chassis, knuckles and dislocators increase strength beyond earlier i-LIMB models
- Unique pulsing grip strength is variable & selectable/digit.
- Proportional speed - the stronger the input signal, the faster the hand moves
- Two sizes - small or medium
- Two Colors - black or natural
- BioSim Professional software embedded in the hand.

SPS has modified its 2010 i-LIMB Training Course to include instruction on the new **Pulse Hand & Dynamic Flex Cover.**

Please check with your SPS Sales Manager concerning registration and product availability.

Prosthetic Advances 2010 Training Schedule

Oct 19 Alpharetta, GA
Nov 11 New York
