

# PROSTHETIC ADVANCES COURSE

The Plie' MPC Knee portion of the course includes a live patient fitting and hands-on session to obtain a working knowledge of how to properly select and utilize all Plie' MPC Knee® functionality. Each participant will learn how to properly fit, align, and adjust this new technology. Four (4) CEUs have been applied for this course segment.

## i-LIMB™ Hand

The i-LIMB portion of the Prosthetic Advances course includes instruction on the operation of the i-LIMB System, patient evaluation, functional testing of myoelectric control, integration & fitting, covering

options and use/care of the i-LIMB Hand. Three (3) CEUs are approved for the course segment and one (1) upon completion of the on-line test.
