

2010 i-LIMB™ Hand Training Course

SPS NEW 2010 i-LIMB Training Course provides instruction on the operation of the i-LIMB System, including the Low Profile Hand, new i-LIMB Socket Componentry and Dynamic Flex Covering.

Participants receive skills required for appropriate patient evaluation, functional testing of myoelectric control, integration & fitting, covering options and use/care of the i-LIMB Hand. Reimbursement, coding and warranty options are also detailed.

Three (3) CEUs are approved for the course and one (1) CEU upon completion of the on-line test.

Please check with your SPS Sales Manager concerning registration and product availability.
