

ease of
MIND

for your young patient

The cold messy plaster. The scary noisy saw. The long wait for the thick cast to set. It's enough to disturb any adult - how much more for an infant, a toddler, or a child?

ease of
USE

for you

Our new STS Pediatric AFO Casting socks are as easy to use as slipping on a pair of socks - and just as easy to remove. No mess. No cast saw. Just a fast, clean, easy and very accurate cast.
