

# SureStep<sup>SM</sup>

## CFAB

Quality Fabrication,  
Personalized Service

## Increase Profits with SureStep CFab

SureStep CFab can give you the edge that your practice needs to stay ahead of the competition. By using our services, not only will practitioners have access to years of knowledge and expertise, but also experience the same quick turn-around times SureStep customers are accustomed to. Prep option available, custom made to measurements.

**Call to ask about our competitive pricing.**

**"Simply put, SureStep has nailed it with their CFab program.**

My adult population has benefited greatly from the quality and craftsmanship that has always been a part of the SureStep program."

**John Brestovansky, CO/LO, LP**

## DCO

**Dynamic Cervical Orthosis**

*An Active Systems Product, Exclusively Distributed by SureStep*

**Now only \$250, Call to Order!**

The DCO is the most advanced system available for the treatment of head drop. This truly dynamic device is the only system available that supports a neutral, midline position, while still allowing normal movement. Through the use of the dynamic resistance band, the DCO offers a resistance to movement, helping to facilitate strengthening of the musculature of the neck, while assisting with re-centering in midline.
