That's why more Prosthetists are turning to the Original TES Belt.

Your client's success is based on how secure their prosthesis feels.

The Original TES Belt, with the broadest range of sizes available – from infant to XX large – gives your clients the assurance that they have the right belt. (We also accept custom orders)

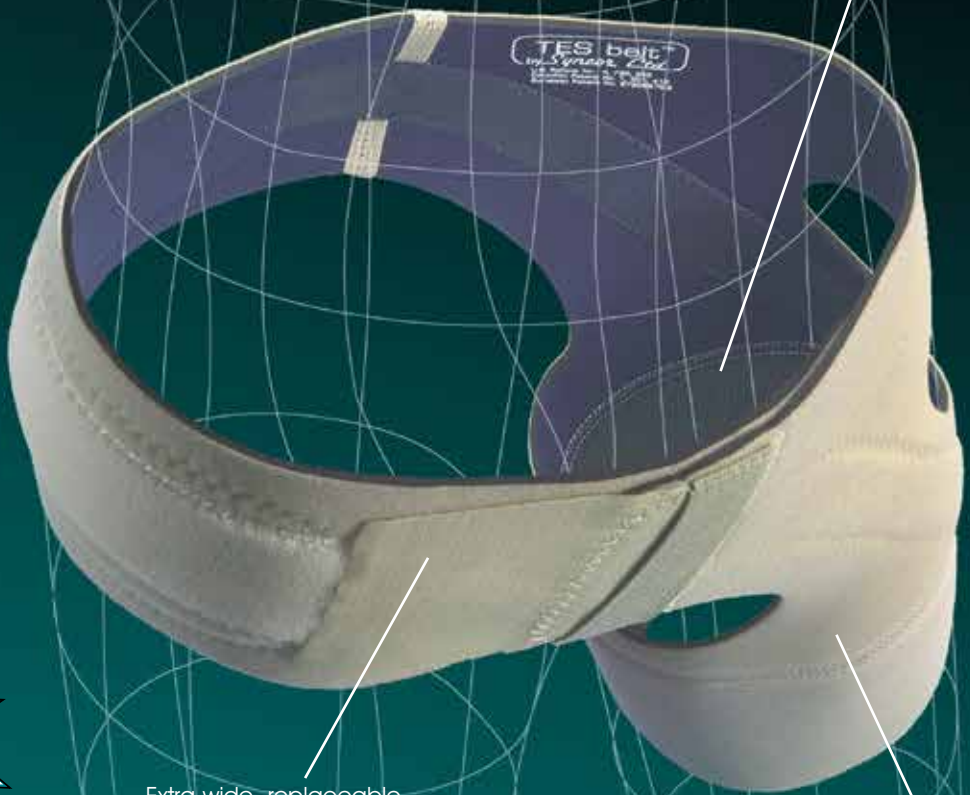

TES Belt's unique Silesian design evens out stress, eliminates the pull-down feeling of old girdle style belts and adds to comfort and confidence.

Unmatched quality, proven reliability and competitive pricing make your clients successful with The Original TES Belt.

Wide 360° textured grip cuff & modified adductor panel for improved lateral gripping

Hand loop eases application and closure

Extra wide, replaceable velcro strip increases number of closures

Reinforced color-matched seams throughout
