

CUSTOM BUILT. BECAUSE PROPULSION IS PERSONAL.

PROPULSION

IDEO

- » *Proximal PTB unloading - similar to BK prosthesis*
- » *BOA Closure System to maximize calf compression and support*
- » *Interchangeable posterior dynamic strut (categories 1-9)*
- » *Rigid rocker bottom footplate design to minimize midfoot stress*
- » *Maximum M-L stability at ankle*

Indications:

Foot and ankle crushing injuries, post ankle fusion pain, lower leg and foot pain, ankle and foot pain post fracture/trauma, tibial pilon fracture
