

Prosthetic solutions to enhance daily life.

i-limb™ ultra revolution

More ease of use and control than ever before

- New **grip chips™** control technology allows for immediate grip access to perform a variety of daily tasks.
- New **i-limb™ skin active TS** coverings are touchscreen compatible.
- Mobile app now offers 36 grip patterns including 24 **quick grips™** and 12 customizable **my grips™**.

livingskin™

A new level of realistic silicone prostheses and i-limb™ coverings

- Introducing **my livingskin™**. Our iPad-based color capture system offers an easy process resulting in a high quality prosthesis or **i-limb™** covering.
- New **i-limb™ skin natural** i-limb covers include 18 colors, improved design, and are easier to don and doff.
