

Become part of the...

# Bionic Revolution!

## i-LIMB™ Hand Training Program Announcement

### Bionic Upper Limb Technology Made Easy:

The i-LIMB Hand is a leap in prosthetic technology and this is your chance to grow your skills and your business by becoming an Accredited i-LIMB Hand Practitioner.

### Training session features include:

- Patient Selection and Reimbursement
- Fitting the i-LIMB Hand and Socket Development
- Marketing Guidance and Promotion
- Servicing, Support and Aftercare
- Ask-the-expert Interactive Q&A

i-LIMB technology is here-and-now with ever-increasing numbers of patient users being fit. This opportunity is for you and your upper limb colleagues to become part of the revolution and get certified.

Framed accreditation certificate for all attendees
