

New Pricing.

reduced up to
50%

We're now offering the same high quality adapters you've come to expect from Seattle Systems at much lower costs. Today, all of our adapters have been reduced from 20% to 50%. And that's a big deal, as well as big savings for you.

Hair Thin Tolerances. .005"

All of our modular components are manufactured with precision using computer numerically controlled machinery. We maintain all tolerances to within .005". This precision is maintained throughout the entire product line from pediatric to 366-pound adults.

Corrosion Resistant Dacromet® Coating.

Seattle Systems applies Dacromet® coating to all set screws. This attention to detail drastically reduces screw corrosion, binding and galling. Combined with the same titanium and aluminum used in airplanes, the space shuttle, space station and the hull of submarines, you're assured a lightweight, quality product.

Dacromet® is a registered trademark of Metal Coating International, Inc.

Aerospace quality adapters,

at prices that aren't sky high.

SEATTLE SYSTEMS

Restoring Everyday Living.™

1.800.248.6463 · www.seattlesystems.com

Proven Engineering.

Seattle Systems modular components are subjected to rigorous ISO 10328 test standards to substantiate and ensure patient safety over time. Plus, our modular adapters are tested in a manner that simulates running across the United States at an eight-minute mile pace. While your patients may not currently be that active, we simply want to ensure that our products aren't the limiting factor.

Quality Guaranteed.

Along with each component we make comes peace of mind. Because Seattle Systems operates under the ISO 13485 quality system standard. It's just one more reason to choose our adapters.
